Importance to Public.

Elimination of such passenger trains as will cause the least public inconvenience has been determined upon by the Baltimoré and Ohio railroad. Special excursion trains on the main lipe will be restricted.

This announcement has been made by Vice President A. W. Thompson, head of the traffic department. It is stated that this plan will release many locomotives needed to move food and defense materials, and permit the transfer of many employes to exclusive handling of such traffic.

The adoption of this policy is in response to the suggestion of Daniel Willard, president of the road, and chairman of the advisory commission of the council of national defense.
